Environmental Protection Policy

ILIRIJA d.d commits itself to implementing environmental protection policy and proactive measures for the conservation and sustainability of the environment for the future generations with all of its sectors and profit centers.

Every day efforts are made to reduce negative environmental impacts arising from our activities, to a minimum, in order to contribute to a cleaner and safer environment.

In order to achieve our goals, we are committed to:

- Complying with all relevant legal obligations and proactive action aiming to meet the future requirements and standards.
- Preserving natural resources by responsible utilization of energy, water and materials while maintaining the quality of the service that our guests expect us to render.
- Reducing the amount of waste disposed by establishing operational procedures and evaluation of their maximum efficiency.
- Active promotion of recycling and waste classification not only in the company, but also among the guests, customers and suppliers.
- Monitoring results achieved by reducing, recycling, reuse of waste materials and energy and their continuous improvement.
- Cooperation with suppliers that also implement the policy of protection and reduction of negative environmental impacts.
- Reduction of pollutant emissions by choosing and using efficient fuels and energy sources.
- Ensuring that the operations are constantly revised, improved and disseminated to all participants in the operational process.

Biograd na Moru, May 2014

President of the Management Board of ILIRIJA Inc.
